Hi Dean-

I'd like to send out 104(e)'s to the various owners/operators by the end of this week. Attached is the 104(e) info request and cover letter for your review. Specifics about each PRP will be added to the highlighted areas once this general request and letter are approved. The 104(e) follows standard language so there shouldn't be any surprises.

One question, who should sign it? Regional delegations say it's either you or Calvin. Do you have a preference? I don't recall the standard practice, if we have one.

Thanks,  
Kris
